3Shape TRIOS clear aligner integration partner, Orthocaps now available in the USA

Copenhagen, November 27, 2018 – 3Shape TRIOS integration partner, Orthocaps clear aligner treatments are now available to USA dental professionals.

The clear aligner maker has received USA market clearance. The aligners will be distributed by Rocky Mountain Orthodontics (RMO).

3Shape TRIOS has been digitally integrated with Orthocaps for the past two years in Europe.

The digital integration now enables USA dental professionals using the 3Shape TRIOS intraoral scanner to send cases with just one click to Orthocaps for analysis and clear aligner production.

“Orthocaps is a strong integration partner here in Europe for 3Shape. We’re very excited that professionals in the states can now also take advantage of this leading clear aligner treatment for their patients. Providing professionals with the widest selection of clear aligner treatment open options is really what makes 3Shape TRIOS unique in our industry,” says Allan Junge Hyldal, Vice President 3Shape Orthodontics.

“As the founder of Orthocaps and as an orthodontist, my focus has always been on quality. Being a high-quality product and supported by a dedicated and professional team, the 3Shape TRIOS perfectly fits into that concept. I am very happy to continue this cooperation with 3Shape in the United States as well,” says Dr. Wajeeh Khan, Founder, Orthocaps.

About Orthocaps

Ortho Caps GmbH is a privately owned German dental product company, that makes and sells clear orthodontic aligners. orthocaps® aligners are custom made from soft thermoplastics, which are chosen according to patient’s treatment needs. This TwinAligner® system uses two different types of aligners for day and night use for each treatment step. The use of soft materials makes the orthodontic treatment more effective and less painful for patients. Ortho Caps products include orthocaps® „pro“, orthocaps „plus“, orthocaps „basic“, orthocaps® „Kids“ and Hybrid Aligner Treatment (HAT) systems.

About 3Shape

3Shape is changing dentistry together with dental professionals across the world by developing innovations that provide superior dental care for patients. Our portfolio of 3D scanners and CAD/CAM software solutions includes the multiple award-winning 3Shape TRIOS intraoral scanner, the upcoming 3Shape X1 CBCT scanner, as well as market-leading scanning and design software solutions for both dental practices and labs.

Two graduate students founded 3Shape in Denmark’s capital in the year 2000. Today, 3Shape has over 1,400 employees serving customers in over 100 countries from an ever-growing number of 3Shape offices around the world. 3Shape’s products and innovations continue to challenge traditional methods, enabling dental professionals to treat more patients more effectively. www.3shape.com
